## Album review: Les Siècles Live: Debussy (from Harmonia Mundi)

"I love the sea and have listened to it with the passionate respect it deserves," wrote Debussy. The three symphonic movements of *La Mer* not only convey impressions but can also stir the emotions. They certainly do so in this stunning live recording on period instruments, directed by François-Xavier Roth. Paired with Debussy's famous seascape is the original orchestral version of his *Première Suite*, comprising movements headed *Fête*, *Ballet*, *Rêve* (Dream), and a final procession and bacchanale. Much of the long-lost full score was located five years ago in New York. Fascinating early Debussy!
